

SmartSaver6 Injector Kit

For ISB5.9 and ISB6.7 Engines

SmartSaver6

Benefits of Replacing All Six Injectors:

- Minimize Downtime
- Maximize Savings
- Improve Fuel-Economy
- Increase Engine Life
- Genuine Cummins Quality

Minimize Downtime. Maximize Savings.

Cummins SmartSaver6 Injector Kit

Cummins SmartSaver6 Injector Kits for ISB5.9 and ISB6.7 engines are an excellent way to avoid multiple service events and save money. By replacing the entire set of six injectors instead of one at a time, you save up to 30%. That's better than buying five and getting one injector for free!

What does this mean in real money? Buying a SmartSaver6 Injector Kit will save you close to \$1,000 on the parts alone.

The Real Cost Of Downtime.

If one injector needs replacing, chances are good that the other five will need to be changed out within the next couple of years. Throw in labor costs for replacing injectors independently, plus the potential loss of revenue from taking a vehicle out of service; it becomes easy to see how you save money over the long-term by proactively replacing all injectors.

Remanufactured vs. Rebuilt.

Cummins SmartSaver6 Injector Kits contain six ReCon injectors that have been remanufactured to Cummins precise standards for quality and performance. These injectors are engineered to meet or exceed original specifications, and assembled using the latest manufacturing techniques and materials.

Unlike some non-genuine parts, every injector is disassembled and cleaned in a dust-free environment and performance-tested on the line. Many competitive injectors simply replace the nozzle and don't come close to the stringent quality control measures of a Cummins ReCon injector. That's why you can expect these Cummins ReCon injectors to perform better and last longer than anything else on the market at any price.

Which ISB Engines Are Covered?

SmartSaver6 Injector Kits are available for 2002-2012 ISB5.9 and ISB6.7 diesel engines* that utilize the High-Pressure Common Rail (HPCR) fuel system.

SmartSaver6 Part Number	Engine Model Year
5263318-6R	MY 2002 - 2004
5263316-6R	MY 2004
5253221-6R	MY 2004 - 2007
5253220-6R	MY 2007 - 2010
4994928-6R	MY 2010- 2012
5256034-6R	MY 2010- 2012
5254261-6R	MY 2010- 2012

We Install Confidence.

Every Cummins ReCon injector is precisely calibrated to factory specification and computer tested to ensure optimum fuel economy, durability and power. We're so confident in their reliability and durability, we're giving them with a full 1 year/100,000 mile (160,935 km) warranty backed by the largest parts and service network in North America, with over 3,500 authorized locations.

Now Available Near You.

SmartSaver6 Injector Kits are now available wherever Genuine Cummins New and ReCon® parts are sold. To find a location near you, visit cumminsengines.com or call 1-800-DIESELS (1-800-343-7357).

*SmartSaver6 Injector Kits are not available for all engines and total price depends on core acceptance and kit availability.
