

# Are constant repairs really cheaper than repowering?

If your buses are experiencing recurring engine problems, can you afford NOT to repower?

**Cummins has developed the perfect solution to repower your fleet. Rather than pouring money into service repairs for a failing engine, repower your buses with our cost-effective upfit package featuring Cummins ISB 07 engine.**

**Our repower will improve your fleet's:**

- **Drivability** – smoother operation, greater engine response
- **Serviceability** – increased access on all sides of engine
- **Reliability** – more than 20 years of proven performance
- **Fuel economy** – 17.2% advantage on urban routes = lower diesel costs
- **Noise level** – drivers will notice a significant reduction in noise after repower
- **Resale value** – 5-year warranty extends bus life and increases resale value (extended warranty coverage available)

**Cummins repower package was designed for your IC buses.**

**The custom upfit package includes:**

- New Cummins ISB 07 – EPA 07 certified
- New Cummins Emission Solutions aftertreatment system
- Installation hardware kit
- Installation documentation and required paperwork
- Ability to incorporate the current cooling system, if possible

It's everything you need for easy installation at your site or your nearest Cummins distributor service location.
